on 12/13/23 I came to Franklin Co. Jail on writ to go to court after being released on bail while in Prison. I was picked up on 12/14/23 in Scranton as soon as I got here I told Medical Staff / Nurse "Phillips" who is familiar with who I am. I explained to her that I have food allergies and she told me that she knew from the last time I was here, so I did tell her the last ^{time} I gave her possible allergies I just knew back then that certain stuff would make me itch and swell. I told her that I just had labs done Nov 1st 2022 when

I went SCI-SmithField For Diagnostics.
So SCI-SmithField have records, and SCI Mahanoy
had my lab records she could reach out and get
records of it. She ignored me and proceeded to
prepare the needle stick for my TB test, while i'm
chained up and shackled up, my whole medical intake
was done in chains for no reason at all. She
wasn't able to apply the needle to the bottom of
my fore-arm so she "stuck" the top of my arm
and never came back for a second reading. Supena
the video footage from the 14th of December 2023 I have
IV. RELIEF no reason to make any of these claims up... →

State briefly exactly what you want the court to do for you.

Make no legal arguments. Cite no cases or statutes.

I would like for all Parties involved
under Medical Staff to be held
accountable and disciplined, for there
negligence of my medical "care";
and compensated for the mental and
physical stress i have endured under
their "care" in the amount of
1.5 Million

for the next 3 days on the 17th I notice that my special ~~diets~~ trays what they were giving me was never changing. My labo read at SCI Mahanoy - and Smithfield.

NO- Peas, gluten, Soye bean, Soye Protein, Peanut butter, shell fish, wheat, hazlenut, walnut, tomato, This Jail had no menu for me and still don't they Fed beef and rice "Cold" for lunch everyday for the first week and for dinner I was Fed Shredded chicken and rice "Cold" for the first week and every breakfast was the same cold boiled eggs stale commmeal tortillas with oil and halfcooked grites and applesauce. When I seen Nurse Phillips bring her rounds for meds I yelled to her to see if I could speak to her about the trays and the TB reading she said "what"? I ask her if she could change my diet and she said "no", because I shouldn't have lied. --- I'm sure if the body cam footage is requested from my time in the lock up (DS) you'll see footage where I am telling D.O.'s that I never had a second reading for my TB testing I also said something to the CTS worker Mr. Lovett. I also explained to CTS worker Mr. Filepass about all the neglect that had been issued my way. I said something to the one nurse, I can't remember her name but she gave benedril because I was having a really bad allergic reaction my thote started swelling, nurse walker came down and said that nothing was wrong with me, but still gave me benedril. The scariest time in my life and they could have let me die. Even the special diets were making me itch and swell ~~at~~ and not one person thought to contact SCI - Mahanoy for my records that would have possibly seen that I ^{had} several allergic reactions there also and they gave me a steroid shot twice in one week while I was there just months ago from today. --- the one nurse came to my door and ask me what I was allergic to I told her and she ask about the allergies I told her about the food and ask her to please switch me back to regular diet because every one else has options but I get the same cold food every day and the portion were extra small, so she switched it back and now I am suffering from the itching really bad I went to well-span medical for itching twice and never know it was allergies so it's real I can get medical records.

I ~~at~~ honestly feel that the nurses and the officers are treating me unjustly and unfair because of personal reasons, they don't like me, they may be intimidated by me but this is jail and they apparently don't have proper training like the rest of C.O's here. I still eat food that i'm allergic to and i do suffer and no one cares as long as i am ~~at~~ quiet; this place is corrupted and there should be some type^{of} class-action with these

People, I have medical records from home that Prime Care nurses fell to get from well span in Franklin Co. and PRMC in Salisbury MD. 21801 to Prove I have been to the emergency room on different occasions for itching reflexively. They don't care, my benedril was stop and now i just itch. on 12/31/23 I woke around 2:30AM and push the button because of chestpains My Cell Mate Brenden Downey was on the top bunk I was complaining all that evening about chestpains even to the nurse that brought over nail clippers that evening 12/31/23 no one checked my ~~vital~~ vitals at any point nor was there any follow up's about my chest pains Nurse Robbinette just at the C.O. Desk while the officer relayed the messages that worked at 2:30 AM on 1-1-24. She never came to my door, she didn't show concern because my name is Glay Leshawn Kimble

Today is 24 hours called to the C.O.'s desk because i was needed by Prime Care Nurse Ms. Cloey Walke and she a release of information form to get my medical records from SCI-Maharaj after being here or 3 1/2 weeks of being here with a chronic allergy disorder. I spoke to nurse Phillips on the 14th, the day i got here and it was addressed ~~to~~ nursing on 12/22/23 and these nurse wanted me to suffer, because I was making fuss about the PREA issue this is all part of retaliating against me for the officers that don't like me. today when i spoke to the Assistant Nurse Practitioner "Ms. Jess" she ordered me cleariten because my diet is not going to be changed and will still be consuming food that i'm allergic to here at Franklin County Jail. You couldn't emagin what i go through here because of not knowing how to conduct myself in this place because of sexual harassment. There is currently and open PREA case.

Hello, I am contacting you all because I
 Been trying to tell Medical that I
 had blood work done and the list off
 allergies that they have for me here
 is the assumption that I had, because
 of all the itching, and swelling all they
 have to do is contact SCI Monahoy and
 reach out to Medical to get what
 my labs read.
